### 4. Hospitals.

There are no hospitals of any description within the area. Hospital accomodation for Infectious Diseases - No change.

### 5. Maternity and Nursing Homes.

No action has been taken under the Nursing Home Act of 1927.

### 6. Cases of Maternal Mortality and Puerperal Pyrexia are investigated by the County

Authority.

### 7. Institutional Provision for the care of Mental Defectives - None in the Area.

### 8. Diphtheria Immunizations and Vaccinations Procedure administered by County Council

and carried out at a clinic or by the local doctors at their surgeries.

## SANITARY CIRCUMSTANCES OF THE AREA.

### 1. Water Supply.

To date nine of the largest villages have main supply. Samples were taken by the Sanitary Inspector in various parishes during the year and the results of these are set out in his Report.

### 2. Drainage.

Dulverton, Brushford and Exford have modern works. Winsford and Brompton Regis will be sewered as soon as circumstances permit.

### 3. Rivers and Streams Pollution.

No action was considered necessary.

### 4. Closet Accomodation.

Improvements in the scattered cottages are constantly being made and every encouragement is given to do this. Many new septic tanks have been installed during the year.

### 5. Schools.

- (1) Kingsbrompton, Dulverton, Exford, Withypool and Brushford are the only schools having flush lavatories. Exton, however, has a piped water supply. There is still room for improvement in the sanitary arrangements to the remainder.
- (2) Public Cleansing. See Sanitary Inspector's Report.
- (3) Sanitary Inspection of the Area. See Sanitary Inspector's Report.
- (4) Eradication of Bedbugs. No action has been required up to the present.

# SANITARY INSPECTOR'S REPORT.

To the Chairman and Members of the Dulverton Rural District Council:-

Mr. Chairman, Ladies & Gentlemen,

I beg to submit my report for the period from 1st January to 31st December (inclusive) 1950 in accordance with Article 19(12) of the Sanitary Officers Order, 1922.

The work of the Authority continues to increase, and even with the help of a qualified assistant employed on a temporary basis, difficulty is experienced in carrying out all the duties required in an efficient manner. Travelling in a scattered district of 79,000 acres occupies much valuable time, but this is unavoidable.

A general survey of all dwellings in the district is now complete. The results to date show that many are in need of repair, but owing to licensing difficulties it is apparent these dwellings will become even less fit and a further survey be necessary at a later date when repair facilities become more normal. It is unfortunate that some form of licensing cannot be ~~involved~~ which could bring many dwellings up to a reasonable standard and thereby reduce the number of new houses now being built. The saving in cost would in many cases prove the worth of such a scheme.

## NUISANCES AND COMPLAINTS.

Defective Cess Pits.....	11
Offensive Accumulation.....	6
Fouled Watercourses.....	3
Dirty Premises.....	6
Bad or Suspected Water Supply.....	33

Sewage and Drainage.....	40
Total.....	387

Other than cowsheds. .

In addition to those mentioned under Housing Defects. 216 visits were made in connection with these and all were remedied without the necessity of issuing Statutory Notices.

## INSPECTION AND SUPERVISION OF FOOD SUPPLIES.

Meat. All slaughterhouses in the district are now closed, slaughtering being done in the Central Abattoir at Minehead, but regular inspections are made of meat arriving at the Butcher Shops.

## RECORD OF INSPECTIONS.

Routine Visits.....	57
Occasional Slaughtering.....	Nil.

## MEAT UNFIT FOR HUMAN CONSUMPTION.

	Whole Carcase.	Fore Quarter.	Hind Quarters.	Head.	Livers.	Lungs.	Heart.	Spleen.

Milk and Dairies.

The inspection of cowsheds and dairies are now the responsibility of the County and Agricultural Committee's. From visits made in the course of other duties it would appear there is still some room for considerable improvement to buildings and general cleanliness. Under the grant aided scheme water supplies are being improved at a reasonable rate.

Milk Sampling.

Samples were taken during the year and there were very few which did not pass the required test.

WATER SUPPLY.

All main water schemes under the control of my Council are visited at least once weekly. With the completion of the Huish Champflower scheme all the larger villages now have a piped water supply. Some relaying of corroded mains will be necessary in the near future.

SCAVENGING.

The Council make regular collections of house refuse throughout the district, all of which is taken to a central incinerator at Dulverton. There are no dumps.

HOUSING.

The rate of progress on new housing during the year has been satisfactory. To date 51 new houses have been completed at Dulverton, and outlying villages. Others are in course of construction.

SEWAGE DISPOSAL AND DRAINAGE.

Main works are installed at Dulverton, Brushford and Exford and it is hoped in the future to submit schemes for Winsford, Withypool and Brompton Regis.

INFECTIOUS DISEASES.

At the request of the Medical Officer of Health enquiries into all cases of Infectious Diseases were at once carried out.

Number of Premises visited..... 4.

Number of Rooms Disinfected..... 4.

PETROLEUM ACTS.

Petroleum Licences granted during the year..... 46.

Amount collected..... £20.5.0d.

SUMMARY OF INSPECTIONS FOR YEAR.
